

Report For: John Doe

**ID:** HB057659 **Date:** July 31, 2013

# INTRODUCTION

The Hogan Personality Inventory is a measure of normal personality that uses seven primary scales to describe Mr. Doe's performance in the workplace, including how he manages stress, interacts with others, approaches work tasks, and solves problems. Although the report presents scores on a scale-by-scale basis, every scale contributes to Mr. Doe's performance. The report notes strengths as well as areas for improvement and provides discussion points for developmental feedback.

- When examining HPI scale scores, it is important to remember that high scores are not necessarily better, and low scores are not necessarily worse. Every scale score reflects distinct strengths and shortcomings.
- HPI scores should be interpreted in the context of the person's occupational role to determine whether these
  characteristics are strengths or areas for potential development.
- The HPI is based upon the well-accepted Five Factor Model of personality.

# **SCALE DEFINITIONS**

HPI SCALE NAME	LOW SCORERS TEND TO BE	HIGH SCORERS TEND TO BE
Adjustment	open to feedback candid and honest moody and self-critical	calm steady under pressure resistant to feedback
Ambition	good team players willing to let others lead complacent	energetic competitive restless and forceful
Sociability	good at working alone quiet socially reactive	outgoing talkative attention-seeking
Interpersonal Sensitivity	direct and frank willing to confront others cold and tough	friendly warm conflict averse
Prudence	flexible open-minded impulsive	organized dependable inflexible
Inquisitive	practical not easily bored uninventive	imaginative quick-witted poor implementers
Learning Approach	hands-on learners focused on their interests technology averse	interested in learning insightful intolerant of the less informed

# **EXECUTIVE SUMMARY**

Based on Mr. Doe's responses to the HPI, on a day-to-day basis, he seems:

- Calm when others feel stressed or pressured, and as a result, others may think he is not sensitive to their issues. He is not likely to seek feedback and may resist coaching.
- Assertive, competitive, and task-oriented. He will seek opportunities to lead and take initiative and may be frustrated if they are not available.
- Approachable, talkative, and comfortable meeting strangers. He may dislike working alone.
- Warm, charming, and agreeable. He should be good at managing relationships, but will avoid confrontations, conflict, and providing negative feedback.
- Responsible, detail-oriented, and amenable to close supervision. He should be somewhat inflexible but otherwise a good organizational citizen.
- Curious, innovative, creative, tolerant, and open-minded. He may also seem impractical, impatient with details, and easily bored.
- Knowledgeable, up to date, and interested in learning. He should do well in structured learning or training environments and may find it hard to understand people who have no interest in formal learning.

# PERCENTILE SCORES

The percentile scores indicate the proportion of the population who will score at or below Mr. Doe. For example, a score of 75 on a given scale indicates that Mr. Doe's score is higher than approximately 75% of the population.

- Scores of 0 to 25 are considered low
- Scores of 26 to 50 are considered below average
- Scores of 51 to 75 are considered above average
- Scores above 76 are considered high
